## MAKE DIRTY DIESEL A THING OF THE PAST...

Designed by diesel fuel injection manufacturers as a pre-filter to the original equipment filter, Drivetech 4x4 Fuel Manager protects vital diesel injection components from water, humidity, acids and other contaminants before they hit the primary fuel filter.

These kits are easily installed in your engine bay without having to modify any existing vehicle components. With multiple inlet and outlet ports, this dynamic design allows flexibility during installation.

### Why is Drivetech 4x4 Fuel Manager the best choice?

- Longlife filter media has been heat and chemically treated for maximum durability and acid resistance
- All components are tightened and removed by hand - no need for filter tools
- Easy view, see through polycarbonate drain bowl
- Multi-port head allowing mounting in any place and in any configuration
- Suits all diesel engines from 50 to 350 horse power (37 to 261 kilowatts) with a maximum fuel operating pressure of 60 p.s.i.

## DRIVETECH SUMOSPRINGS REVOLUTIONARY 'AIRLESS AIRBAGS'...

**Introduced to the Australasian automotive aftermarket in late 2012, this revolutionary product that was a world's first load assist "airless airbag" suspension system.**

Manufactured using a highly durable microcellular polyurethane material that provides progressive compression under load and variable road conditions.

Extraordinarily durable, Drivetech SumoSprings eliminate the frustrations of leaking or puncturing, which are so common in conventional airbags. There is minimal possibility of system failure with Drivetech SumoSprings, as they don't require air lines or compressors.

The microcellular polyurethane won't rupture and – incredibly – it can even be punctured without causing any loss of performance!

### **Drivetech SumoSprings:**

- 100% maintenance free
- Leak and rupture proof
- Reduce rear end sag
- Reduce body roll
- Self-adjusting
- Easy to install – no drill installation
- Simply fit and forget

## **SUMOSPRINGS** - VARIABLE
