

August 2018

Drivetech 4x4 Bumper by Rival Nissan Navara NP300

Coming soon! Limited stock arriving, be the first to secure yours so you don't miss out!

Drivetech 4x4 Bumper by Rival provide an excellent amount of strength and protection without the disadvantage of a heavy steel bar. Integrated recovery points, LED fog / driving lights and winch mount allow for fitment no matter what your needs. Stylish and functional, these bars come in a matte wrinkle style black finish and are designed for ease of fitment with or without Drivetech 4x4 Underbody Armour by Rival.

These bumpers have been independently tested and comply to meet ADR69 standards and are Air Bag compliant.

Don't miss out on your chance to be one of the first in the country to fit and own the latest Drivetech 4x4 Bumper release. Fill out the pre-order form below and pass along to your Drivetech 4x4 Representative no later than **Friday the 24th August 2018** to secure your bumper bars.
