ACCESSORIES

2 Point Universal Diff Breather Kit

Drivetech 4x4 now has a 2 Point Universal Diff Breather Kit available.

This easy to install kit comes with everything you will need to protect your front and rear diff from water ingress.

A simple yet effective design ensures easy fitment and maintenance.

With 10m of hose, clamps, cable ties, a CNC Bracket, barb fittings and filters you will be able to safely and securely run a length of hose all the way up to a high point in the engine bay and tie the hose securely to reduce the risk of damage to the tube from moving objects.

A perfect way to reduce the risk of damage from water ingress to the front and rear diff on your 4x4.

Part Number: DT-2DBK
