6R80 Trans Cooler Assembly To Suit Ford Ranger PXII and PXIII

The 6R80 Automatic Transmission Cooler Assembly is now available from Drivetech. This Cooler Assembly improves Transmission cooling efficiency and features:

- High efficiency 'Stacked Plate' cooler core design
- Directional flow control channels to ensure maximum surface area exposure to airflow
- Channeling creates currents within the oil flow that eliminates hot core oil temperature at the centre of each flow passage
- Comes with a 12 Month / 20,000km Warranty
- Rubber Hose installation

This Ford Ranger Transmission Cooler is suited to the following vehicles:

- PXII Series 6/2015 - 6/2018
- PXIII Series 7/2018-on
- Suitable for 2 and 4 wheel drive and both 2 and 4 door variants

Part Number: 13868010
