Adapt-A-Case Transmission Jack Buddy

Many transmissions have irregularly shaped oil pans which make it difficult to lift safely while still holding it secure to your transmission jack. Adapt-A-Case Jack Buddy can be mounted to your existing transmission jack to provide a sturdy and safe working solution when removing and replacing transmissions from vehicles.

- Incorporates a heavy duty 50mm wide ratchet strap to hold transmission into position.
- Helps prevent potential injuries to staff
- Helps prevent costly repairs due to damage of transmissions falling to the ground.

Part Number: T-3000AC
