Technical Information

LSD to suit Commodore ZF Differentials

Drivetech Helical Gear LSD Differentials use an all gear design for the smooth transfer of torque to provide maximum traction.

This proven design eliminates the need for wearable parts, providing maintenance free traction.

Helical Gear Design is recognized not only for its durability but also it's smooth and quiet operation.

- Torque Biasing
- Maintenance Free
- No Break-In Period
- Helical Gear, 12 Pinion Design
- No Special Oils Required
- Smooth Automatic Operation
- Installs with Standard Bearings

Part Number: 0555-528082
