Ford 6R80 Dipstick

Ford 6R80 Dipsticks to suit Ford Ranger, Territory (diesel engines only), Mustang and Mazda BT50 are now available.

Over time, these plastic dipsticks can become brittle, which could cause them to crack or break. It is recommended that you change this part during every service or overhaul.

- OEM
- Direct replacement
- Located on the front right side of the transmission case
- Supplied as an assembly but must be separated by hand to check oil level
- Dip oil using yellow indicator section only
- Transmission oil temperature must be between 89° and 102° Celsius
- Use only Mercon LV transmission fluid

Part Number: FX-680065
