

Ford 6R80 Series II Overhaul Kit

TRANstec®

Now available from Drivetech, Series II Overhaul Kit to suit the Ford 6R80 Automatic Transmission, as fitted to Ford Ranger, Ford Territory Diesel and Mazda BT50 vehicles.

- Quality Transtec Overhaul Kit
- Changes to Series II include:
 - Input shaft sealing ring diameter
 - Valve body gaskets

To determine which series transmission you have, measure stator shaft bore where the input shaft sealing rings operate:

- Series I bore measures 28.90mm I.D.
- Series II bore measures 29.72mm I.D.

Part Number: FGS-680100
