

# Narva ALS - Audio & Wearable Lights

Now available, this new release of Rechargeable ALS Audio Lights and wearable Head Mounted Worklights.

Listening to your favourite music whilst working away with these innovative COB LED worklights with integrated speaker providing up to 84dB allows you to stream music paired via Bluetooth. Features selectable light output modes.

Wearable head lamps allow hands free use whilst illuminating the area you are looking at. These incorporate a comfortable adjustable head strap and integrated magnet to allow them to be removed from the strap and placed into position if required.
