Pulley Bearing Kit

Drivetech has introduced a Pulley Bearing kit for Dodge, Jeep, Nissan and Mitsubishi vehicles fitted with the Jatco JF015E / RE0F11A / CVT7 / APO / F1CJB CVT transmissions.

The kit allows complete replacement of transmission Pulley Bearings and encourages entire transmission overhaul.

Kit includes:

- Primary front and rear
- Secondary front and rear

This tapered Pulley Bearing Kit compliments the existing range of Drivetech parts currently available for this transmission.

A comprehensive range of rebuild parts are also available including:

- Overhaul Kits
- Moulded Pistons
- Friction and Steel Plates
- Valve Body Components
- Push Belts
- Filters
- Fluids

Part Number: NBK-15100
