

# Transgo Transmission Upgrades

New Transgo Transmission Solutions now in stock.

Range includes:

- Shift Correction Kits
- Boost Valves
- Replacement Valves

## Shift Correction Kits:

- **SK-6L80** : Suits GM 6L45-6L60-6L80 Fixes extreme pressure damage to worn pressure regulator bore. Restores proper pressure regulator and solenoid regulator valve function. Convenient drop in valves, no special tooling or machining necessary. Includes repairs for blown pressure switches. Includes EPC relief assembly to protect against excessively high pressure. Improves and restores correct driveability with added durability.
- **SK-6R80** : Suits Ford 6R60,75,80 (2006-2013) ZF 6HP19,26,32 Addresses the 45 to 74km/h TCC shudder, erratic pressure due to pressure regulator valve malfunction, harsh shifts, TCC slip and coast down clunk. Includes new pressure regulator valve, TCC regulator valve and 6 dampeners for valve body. Restores and improves overall driveability and durability.

## Boost Valve Kits

- **A750-BOOST** : Suits A750E/F, AB60E/F, A760-761E/H & A960E.

## Replacement Valve Kits

- **6R80-VBR-WT** : Suits Ford 6R60&80 Series, ZF 6HP19,26&32 Series. Addresses persistent coast down clunk shift when hot, ratio codes, long slip sliding shifts when hot, premature bushing failure and Ford with 45 to 74 KPH TCC shudder. Includes new solenoid regulator valve and lube regulator valves with reusable tools.
- **6R80-VBR-NT** : Suits above application and is a refill kit supplied without tools.
