Date: April 2016

New Drivetech SumoSprings Lite to suit Ford Falcon Ute

Drivetech SumoSprings have now released the SSL108 to suit the Ford Falcon Ute. This is the latest addition to the revolutionary “airless air bag system”.

Drivetech SumoSprings Lite is designed for vehicles that carry light to medium loads. Like the original Drivetech SumoSprings, this product is designed to assist in load levelling and vehicle stability when required.

- 100% maintenance free
- Leak and rupture proof
- Reduces front and rear end sag
- Reduces body roll
- Increases vehicle stability
- Self adjusting
- Does not affect ride quality
- Easy to install
- Extraordinarily durable
- Simply fit and forget

Part Number: SSL108
