

TRU-FLOW PRODUCT RANGE

**THERE'S ONLY ONE CHOICE IN ENGINE
COOLING AND TIMING PARTS SOLUTIONS.**

TRU-FLOW HAS A COMPREHENSIVE RANGE OF QUALITY ENGINE COOLING AND TIMING PARTS SOLUTIONS IN THE AUSTRALIAN AND NEW ZEALAND MARKETS. MOST OF THE RANGE IS MANUFACTURED BY WORLD CLASS MANUFACTURERS.

Tru-Flow has a comprehensive range to cover a wide selection of Australian, American, Japanese, Korean and European passenger, 4WD and light commercial vehicles.

Products

Water Pumps

Fan Clutches

Integrated Thermostat and Housing

Radiator Fan Blades

Heater Taps

Coolant Control Valves

Water Outlet

Timing Belt Kits

Timing Belt / Water Pump Kits

Timing Chain Kits

WATER PUMPS

Tru-Flow has one of the most comprehensive ranges of quality Water Pumps in the Australian marketplace.

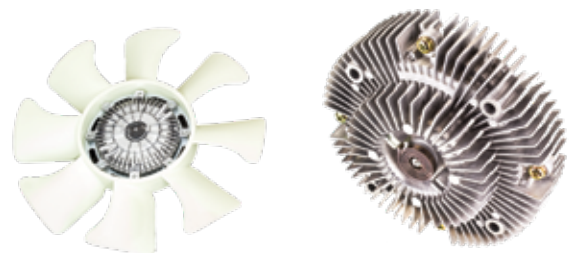

Tru-Flow Water Pumps are produced to high quality by leading manufacturers including GMB, Saleri Europe and other quality Japanese and Korean manufacturers.

Tru-Flow Water Pumps are manufactured using the highest quality heavy duty bearings and seals for stronger resistance to corrosion and harsh Australian climate conditions.

FAN CLUTCHES

Sourced from quality Japanese manufacturers to exact OEM specifications, there is an extensive range of quality Fan clutches in the Tru-Flow range.

THERE'S ONLY ONE CHOICE IN ENGINE COOLING AND TIMING PARTS SOLUTIONS.

INTEGRATED THERMOSTAT AND HOUSING

Tru-Flow Thermostat and Housing assemblies are sourced from the largest quality European, Japanese and Korean OEM manufacturers in the world. These are manufactured to exact OEM temperature specifications for Australian conditions.

RADIATOR FAN BLADES

Tru-Flow has a large range to suit Japanese, Thailand and Korean manufactured vehicles.

HEATER TAPS

Tru-Flow has a wide range of Heater Taps to suit Australian and Japanese manufactured vehicles.

COOLANT CONTROL VALVES

Thermal Management is the ability to control the temperature of a system and its sub systems e.g engine, battery, cabin, e-machine. Coolant Flow Control Valves are needed inside this system for shutting off the coolant flow, switching over coolant circuits and regulating the coolant flow. The valve enables functions for decreasing the engine warm up time through "engine zero flow", enabling faster cabin warm up by directing the heat to the heat exchange core and increasing or decreasing the coolant for an optimised engine temperature.

WATER OUTLET

New to Tru-Flow is a range to suit popular European Vehicles.

TIMING BELT KITS

The comprehensive range of Tru-Flow Timing Belt kits uses OEM quality tensioner and idler pulley components from OEM manufacturers such as INA Germany, Koyo Japan, NTN Japan, NSK Japan, GMB Korea.

Timing belts are high quality belts manufactured by Contitech Europe.

Tru-Flow Timing kits come with unique individual vehicle fitting Instructions, extra timing oil seals to cover application date changes and extra hardware components such as tensioner bolts and tensioner springs.

TIMING BELT / WATER PUMP KITS

Tru-Flow has a broad range of Timing Belt and Water Pump kits using OEM quality components including GMB Asia and Saleri Italy manufactured water pumps. Some Tru-Flow kits include the complete pump with housing.

TIMING CHAIN KITS

The range of Tru-Flow Timing Chain kits uses OEM quality components manufactured by Cloyes USA and other quality manufacturers from Europe and Taiwan.

Kits include chains, guides, tensioners, sprockets and other components where required. Most kits come with option of with or without gears depending on need of replacement.
